HAMMER DRILL 800W

This 800W hammer drill has the right setting for every kind of job: drilling, hammer drilling, chiseling or chisel rotation. It can produce 4860 strokes per minute with an impact force of 4J and it drills up to 26mm in concrete, 13mm in steel and up to 40mm in wood. The depth stop comes in very handy for pre-set hole drilling.

The speed itself can be set from 0 to 1050min⁻¹. A lock-on button sets the drill for continuous running. The SDS plus type system allows a fast and tool-free drill and chisel change. The soft grip gives you maximum comfort and control.

The hammer drill is equipped with a removable auxiliary handle that can be fitted to suit both right-handed and left-handed DIYers. The POWP3010 with dust cap is delivered with three drills, a flat chisel and a pointed chisel.
