INCLUDED	<ul style="list-style-type: none"> <li>• 1x planer</li> <li>• 1x dust bag</li> <li>• 1x side guide</li> <li>• 1x depth guide</li> <li>• 3x knife</li> <li>• 2x belt</li> <li>• 1x wrench</li> <li>• 1x manual</li> </ul>

PLANING DEPTH ADJUSTMENT KNOB

CHIP CLEARANCE ON BOTH SIDES

FRONT BASE WITH 3 CHAMFERING GROOVES

# AVAILABLE APRIL 2018

## PLANER 900W

This 900W planer with soft grip works fast and accurate with its large planing width of 82mm and a rotation speed of 16000min<sup>-1</sup>. The planing depth can be set between 0 and 3mm. The user decides how much wood he wishes to take away.

The planer has three "V" grooves located in the front base to easily chamfer the edges of the workpiece. The "T" guide is used for planing along edges and can be mounted to either the left or right side of the planer. The "L" depth guide is used in conjunction with the "T" guide for rebating. The maximum rebate depth is 12.5mm made in several passes up to 2mm each time.

Another handy feature: the chip extraction can be directed at either side of the tool. This guarantees a clear view during planing.

# POWERPLUS

## PRO POWER

*Pro Power is especially designed to meet the demands of a professional. The superior quality tools deliver a high performance and can handle the most challenging tasks. With Pro Power you can be sure of extremely durable and reliable tools.*
