POWXG2043

TELESCOPIC HEDGE TRIMMER 750W

This telescopic hedge trimmer from Powerplus has a maximum cutting length of 510mm and 750W power. Its laser cut double action blade trims branches up to 24mm in diameter. Your pruning tasks go ahead smoothly, but you still can choose the working speed via the electronic speed control.

Its light weight, soft grip and carrying belt combined with the cable relief give you the comfort you need. The second handle even ensures a two-handed operation. In time of need, the mechanical brake system stops the double action blade quickly. For additional security, the POWXG2043 is also equipped with a safety blade cover, so you don't damage the knives when accidentally hitting the wall or ground. After trimming, you can safely store away the tool with the solid blade cover.
