

**05417 / 05450**  
**tesamoll® Super-Flex**

**Product Description/  
 Application:**

**tesamoll® Super Flex**

The self-adhesive tesamoll® Superflex draught excluder for windows and doors is easy to fit and protects against draughts, cold, dust and noise, and therefore helps saving energy. Weather-resistant due to high quality silicone profile.

- Seals all gaps from 1 to 7 mm
- Durability to 10 years
- Weather-, UV- and ozone-resistant
- Wipe-clean
- Easy to fit without screws or nails
- Best to be applied at 5°C-25°C
- Temperature-resistant from -50°C to +60°C

**Dimensions:**

Colour	Lengths / widths / thickness of profiles
White or Transparent	05417: 6m: 9mm: 8mm 05450: 18m : 9mm: 8mm

**Technical Data:  
 (mean values)**

Backing:	Fabric interlayer	Adhesion/ Steel	$\geq 4 \text{ N / cm}$
Total thickness:	$7,7 \pm 0,7 \text{ mm}$	Gap coverage	1 mm – 7 mm
Adhesive:	Synthetic Rubber
